CONTENTS

No. 1. August, 1942

Contraction Potentials in Man during Reading. *E. Jacobson and F. L. Kraft* 1
Blood Electrolyte Changes in Heart-Lung Preparation. *E. H. Wood and G. K. Moe* 6
Depression of Gastric Motility without Elevation of Body Temperature after Injections of Pyrogens. *H. Necheles, P. Dommers, M. Weiner, W. H. Olson and W. Rychel* 22
Rôle of Viscera in Regulating Temperature of Body. *N. A. Fedorov and E. I. Shur* 30
Relation between Physical Properties of Electric Currents and Their Electronarcotic Action. *A. van Harreveld, M. S. Plesset and C. A. G. Wiersma* 39
Secretion of Renin by Intact Kidney. *F. Huidobro and E. Braun-Menendez* 47
Effect of Methemoglobin on Equilibrium between Oxygen and Hemoglobin. *Robert C. Darling and F. J. W. Roughton* 56
Capillary Permeability and Adrenal Cortex Studies of Cervical Lymph in Adrenalectomized Dog. *Oliver Cope, Addison G. Brenizer, Jr. and Hugo Polderman* 69
Prophylactic Action of Desoxycorticosterone in Shock Due to Massive Venous Thrombosis. *L. N. Katz, S. T. Killian, R. Asher and S. Perlow* 79
Effect of Vagotomy and of Sympathectomy on Sensitivity of Intestinal Smooth Muscle to Adrenalin. *W. B. Youmans, A. I. Karstens and K. W. Aumann* 87
Production of Experimental Polycythemia. *John E. Davis and Albert M. Harris* 94
Effect of Lymphatic Block on Bile Resorption in Obstructive Jaundice. *B. G. P. Shafiroff, Henry Doubilet, W. F. Ruggiero, A. P. Preiss and Co Tui* 97
Influence of Adrenalectomy upon Rate of Glucose Absorption from Intestine. *William G. Clark and Eaton M. MacKay* 104
Influence of Serum Bromide Concentration upon Distribution of Bromide Ion between Serum and Spinal Fluid. *Everett G. Weir* 109
Fasting Respiratory Metabolism of White Rat for 36 Hours following Controlled Feeding. *Clara L. Kingdon, Ivan L. Bunnell and Fred R. Griffith, Jr.* 114
Rôle of Anterior Pituitary in Adrenaline Hyperglycemia and Liver Glycogenolysis. *R. C. de Bodo, H. I. Bloch and I. H. Gross* 124
Continuously Recorded Alterations in Buoyancy of Anesthetized Dogs Produced by Various Respiratory Modifiers. *Hayden C. Nicholson and Robert H. Trimby* 136
Fetal Survival after Injection of Antuitrin-S in Pregnant Rats and Rabbits. *R. M. Coco* 143
Physiology of Embryonic Mammalian Heart before Circulation. *C. M. Goss* 146
Effect of Hydrochloric Acid on Pyloric Sphincter, Digestive Tract and on Gastric Evacuation. *J. P. Quigley, M. R. Read, K. H. Radzow, I. Meschan and J. M. Werle* 153
Acclimatization to Low Oxygen Tensions in Relation to Gastric Emptying. *J. Clifford Stickney and Edward J. Van Liere* 160
Transmission of Radio-Active Iron to Human Fetus. *W. T. Pommerenke, P. F. Hahn, W. F. Bale and W. M. Balfour* 164
Comparison of Physiologic Effects of Dihydrotachysterol and Vitamin D in Rachitic and Normal Dog. *Harold E. Harrison and Helen C. Harrison* 171
On Thromboplastic Activity of Brain and Skin Extracts. *Alfred Lewin Copley* 178
Vasomotor Tone in Hindlimb Muscles of Dog. *J. R. Pappenheimer and J. P. Maes* 187
Effects of Purified Pituitary Preparations on Nonprotein Nitrogen Constituents of Blood. *Jane Fraenkel-Conrat, Heinz Fraenkel-Conrat and Herbert M. Evans* 200
Utilization by Rat of Vitamin A. *O. W. Barlow and Hugo Kocher* 213
Bulbar Projection of Trigeminal Nerve. *W. A. McKinley and H. W. Magoun* 217
Prolonged Action of Histamine. *Charles F. Code and Richard L. Varco* 225
Spontaneous Motility of Pyloric Sphincter. *J. P. Quigley and M. R. Read* 234

Normal Human Arterial Oxygen Tension. *Stuart C. Cullen and Evelyn V. Cook* 238
Rate of Glucose Absorption from Intestine of Diabetic Rats. *F. Pauls and D. R. Drury* 242

No. 2. September, 1942

Innervation of Musculi interossei and Toe Spreading Reflex. *R. Altschul and K. P. Turner* 247
Hemorrhage and Skeletal Muscle Tone. *W. F. Kiely, S. L. Hamilton, E. Gellhorn* .. 251
Effect of Lowered Oxygen Tension of Inspired Air on Respiratory Response of Normal Subjects to Carbon Dioxide. *N. W. Shock and M. H. Soley* 256
Body Temperature of Mice During Anesthesia. *E. F. Barrows and H. Dodds* 259
Electric Responses of Tail Pilomotors and Nictitating Membrane of Cat. *A. Rosenblueth and E. C. del Pozo* 263
Mechanisms in Shock. *E. Mylon, M. C. Winternitz, R. Katzenstein, G. J. de Sütö-Nagy* 280
Hormones in Initiation of Maternal Behavior. *O. Riddle, E. L. Lahr and R. W. Bates* .. 299
Physiologic Responses of Women and Men to Moderate and Strenuous Exercise. *E. Metheny, L. Brouha, R. E. Johnson and W. H. Forbes* 318
Metabolic Effects of Potassium, Temperature, Methylene Blue and Paraphenylenediamine on Infant and Adult Brain. *H. E. Himwich, A. O. Bernstein, J. F. Fazekas, H. C. Herrlich and E. Rich* 327
Influence of Adrenal Cortical Insufficiency upon Response of Muscle to Motor Nerve Stimulation. *H. C. Nicholson, W. Y. Takahashi and J. Hong* 331
Effects of Testosterone Propionate on Renal Function in the Dog. *C. A. Welsh, A. Rosenthal, M. T. Duncan and H. C. Taylor, Jr.* 338
Factors which Influence Activity of Purified Thrombin. *W. H. Seegers and H. P. Smith* 348
Effects of Isotonic Serum and Saline Infusion Following Trauma in Dogs. *H. Gutmann, W. H. Olson, S. O. Levinson and H. Necheles* 355
Nervous Factor in Circulatory Failure Induced in Adrenalectomized Dogs. *W. Kleinberg, J. W. Remington, V. A. Drill and W. W. Swingle* 362
Response of Splanchnic Blood Vessels and of Small Intestine to Vasoconstrictor Influences in Adrenal Insufficiency in the Cat. *J. L. A. Fowler and R. A. Cleghorn* .. 371
Blood Volume of Group of Untrained Normal Dogs. *D. D. Bonnycastle and R. A. Cleghorn* 380
Distribution of Water and Electrolytes Between Bloods, Fluids and Skeletal Muscle in Pregnant Dogs. *A. Childs and L. Eichelberger* 384
Penetration of Radioactive Potassium in Denervated Muscle. *C. P. Lyman* 392
Carotid Sinus Reflexes and Convulsions. *E. Gellhorn, L. Yesinick, M. Kessler and H. Hailman* 396
Significance of Carotid Sinus Reflexes for Effects of Anoxia and Carbon Dioxide on Convulsions. *E. Gellhorn and L. Yesinick* 404
Termination of Ascending Trigeminal and Spinal Tracts in Thalamus of Cat. *H. W. Magoun and W. A. McKinley* 409
Effect of Urogastrone on Gastric Secretion in Enterectomized Dogs. *M. J. Schiffrin and J. S. Gray* 417
Penetration of Sugars into Aqueous Humour. *C. B. Weld, W. H. Feindel and H. Davson* 421
Effect of Peptone on Capillary Permeability. *I. H. Shleser and S. C. Freed* 426
Blood Pictures of Active and Hibernating Ground Squirrels. *J. Stuckey, R. M. Coco* .. 431
Cerebral Metabolism in Fat Fed Dogs. *A. G. Mulder and L. A. Crandall, Jr.* 436
Potential Changes in Injured Cardiac Muscle. *M. Calabresi and A. J. Geiger* 440
Determination of True Cell Volume by Dye Dilution, by Protein Dilution, and with Radioactive Iron. Error of Centrifuge Hematocrit. *M. A. Chapin and J. F. Ross.* 447

Effect of Nicotine on Uterine Responses to Hypogastric Nerve Stimulation. *D. Sheehan and J. S. Labate* 456
Development of Tetany by Rat. *D. M. Greenberg, M. D. D. Boelter and B. W. Knopf* .. 459
Cardiovascular Changes in Stimulation of Motor Cortex. *S. Hsu, K. Hwang, H. Chu* .. 468

No. 3. October, 1942

Blood Pressure of Fetal Rat and Its Response to Renin and Angiotonin. *P. Burlingame, J. A. Long and E. Ogden* 473
Effect of Pulmonary Ventilation on Pressor Action of Adrenaline. *G. W. Stavraky* ... 485
Evaporation from Human Skin with Sweat Glands Inactivated. *E. A. Pinson* 492
Molybdenum in Nutrition of the Rat. *J. D. Teresi, C. A. Elvehjem and E. B. Hart* 504
Prothrombin Activity During Pregnancy and Lactation. *J. B. Field, R. S. Overman and C. A. Baumann* 509
Prophylactic Treatment of Experimental Renal Hypertension with Renin. *G. E. Wakerlin, C. A. Johnson, E. L. Smith, W. G. Moss, and J. R. Weir* 515
Study on Spermatogenesis in Rats. *E. Cutuly* 521
Muscle and Nerve Regeneration in Rat. *H. M. Hines, J. D. Thomson and B. Lazere* . 527
Effect of Adrenalin on Oxygen Consumption of the Fish, Girella nigricans. *D. C. Smith and S. A. Matthews* 533
Use of Radioactive Phosphorus for Determining Total Circulating Erythrocyte Volumes. *R. S. Anderson* 539
Effect of Purified Pituitary Preparations on Urine Nitrogen in Rat. *W. Marx, D. B. Magy, M. E. Simpson and H. M. Evans* 544
Experimental Human Vitamin A Deficiency and Ability to Perform Muscular Exercise. *G. Wald, L. Brouha and R. E. Johnson* 551
Relation of Diethyl-Stilbestrol to Carbohydrate Metabolism in Adrenalectomized and Hypophysectomized Rats. *R. G. Janes and W. O. Nelson* 557
Estimation of Renal Function in Rat by Use of Diodrast and Inulin. *S. M. Friedman and C. A. Livingstone* 564
Inability of Purified or Crude Kidney Extract (Renin) to Reduce Blood Pressures of Hypertensive Dogs. *M. Friedman, H. E. Kruger and A. Kaplan* 570
Effect of Thiamine Hydrochloride on Energy Value of Dextrose Studied in Rats by Single Food Choice Method. *C. P. Richter and K. K. Rice* 573
Importance of Thyroid in Maintaining an Adequate Production of Heat During Exposure to Cold. *G. C. Ring* 582
Prevention of Experimental Shock Following Venous Occlusion in Dog by Application of a Rigid Cast. *L. M. Katz, I. H. Shleser, R. Asher and S. Perlow* 589
Some Effects of Sulfathiazole and Sulfadiazine on Man at Rest and During Exercise. *F. J. W. Roughton, R. C. Darling, W. H. Forbes, S. M. Horvath, Sid Robinson and J. H. Talbott* 593
Cardiovascular Action of Bile Salt with Regard to Inhibition of Cholinesterase. *M. Schachter and S. Dworkin* 599
Rôle of Adrenal Cortex in Anoxia. *G. W. Thorn, B. F. Jones, R. A. Lewis, E. R. Mitchell and G. F. Koepf* 606
Differential Effects of Respiration on Left and Right Ventricles. *R. H. Shuler, C. Ensor, R. E. Gunning, W. G. Moss and V. Johnson* 620
One Ventricle Pump and Pulmonary Arterial Pressure of Turtle. *R. A. Woodbury and G. G. Robertson* 628
Frozen Plant Juice as Source of Rabbit Ovulating Factor. *R. Borasky and J. T. Bradbury* 637

No. 4. November, 1942

The Effects of Heightened Negative Pressure in the Chest Together with Further Experiments upon Anoxia in Increasing the Flow of Lung Lymph. *Madeleine F. Warren, Delores K. Peterson and Cecil K. Drinker* 641

Volume of Air Moved by Artificial Respiration in Anesthetized Men. *D. R. Hooker, W. B. Kouwenhoven and J. Arthur York* 649
The Rôle of the Adrenal Cortex in Preventing Hypoglycemic Convulsions. *V. Arnett, M. Kessler and E. Gellhorn* 653
Renal Excretion of Sulfate. *Bernard M. Schwartz, Paul K. Smith and Alexander W. Winkler* 658
The Rôle of the Anterior Pituitary in Maintenance of Normal Blood Sugar Levels and in the Physiological Mobilization of Liver Glycogen. *R. C. de Bodo, H. I. Bloch and I. Slater* 671
The Control of Clonic Responses of the Cerebral Cortex. *A. Rosenblueth, D. D. Bond and W. B. Cannon* 681
The Effect of Peripheral Vasodilatation on Vasoconstriction: Determinations Made on the Basis of Blood Pressure of Normal Subjects. *Grace M. Roth and Charles Sheard* 695
The Production of Experimental Polycythemia by the Daily Administration of Epiphrine or Posterior Pituitary Solution. *John Emerson Davis* 699
The Effect of Anoxia on Brain Potentials of Hyperthyroid Animals. *M. Kessler and E. Gellhorn* 703
The Influence of Antacids upon Iron Retention by the Anemic Rat. *Smith Freeman and A. C. Ivy* 706
The Production of Shock by Trauma after Spinal Cord Transection. *A. E. Schecter, M. L. Cullen, and N. E. Freeman* 710
Nitrogen Clearance from the Blood and Saliva by Oxygen Breathing. *P. F. Scholander and G. A. Edwards* 715
Mechanism of the Effect of Epinephrine on the Venous Hematocrit Value of the Normal Unanesthetised Dog. *P. F. Hahn, W. F. Bale and J. F. Bonner, Jr.* 717
The Distribution of Sucrose in Body Fluids Following Intravenous Injections. *Roger S. Hubbard and Richmond K. Anderson* 722
The Influence of the Accelerator Nerves on the Basal Heart Rate of the Dog. *Quill Murphy* 727
The Effects of a Diet Deficient in the Vitamin B complex on Sedentary Men. *E. Egaña, R. E. Johnson, R. Bloomfield, L. Brouha, A. P. Meiklejohn, J. Whittenberger, R. C. Darling, C. Heath, A. Graybiel and F. Consolazio* 731
The Acid-Base Equilibrium of the Blood in Exercise. *E. S. Turrell and S. Robinson* 742
Sexual Behavior in Rats with Lesions in the Anterior Hypothalamus. *George Clark* 746
Radioactive Phosphorus Studies on Striated and Cardiac Muscle Metabolism. *Jacob Sacks and Charles H. Altshuler* 750
Effects of Visible Radiations Upon Albino Rats. *John Allordyce, John Aldous, William Cooper, Jean Pratt and Ernest Sutherland* 761
The Relationship between Monochromatic Light and Pupil Diameter. The Low Intensity Visibility Curve as Measured by Pupillary Measurements. *I. H. Wagman and J. E. Gullberg* 769
The Effect of an Injured Area on the Electrical Field of the Heart Based on Experiments with Models. *L. N. Katz, K. Jochim and A. Goldman* 779
Index 787
